DETAILED ACTION

This Office Action is in response to a communication made on December 4, 2000.

The Power of Attorney was received on May 23, 2001 and June 15, 2001.

The Information Disclosure Statement was received on June 19, 2001.

The Change of Address was received on April 11, 2004.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to computing price indexes of information content, classified in class 705, subclass 10.
- II. Claims 5-9, drawn to transmitting information and tracking number of transfers, classified in class 709, subclass 203.
- III. Claims 10-13, drawn to reproducing electronic content and tracking those reproductions over the network, classified in class 709, subclass 206.

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as I because a user may want to meter the number of downloads of content on the Internet to load balance the servers that are hosting the data. Also invention III has separate utility such as I because a user may want to track the reproduction of

content to ensure the content is only on licensed location and not being illegally copied.

See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
